LOGIN PAGE

1. Add Login with Google button on the login page also.

HOME PAGE

1. Redesign the home screen

* Emergency screen wali navigation profile to kro hor kitho nhi anni chaidi

eh vali screen profile de vich option avve

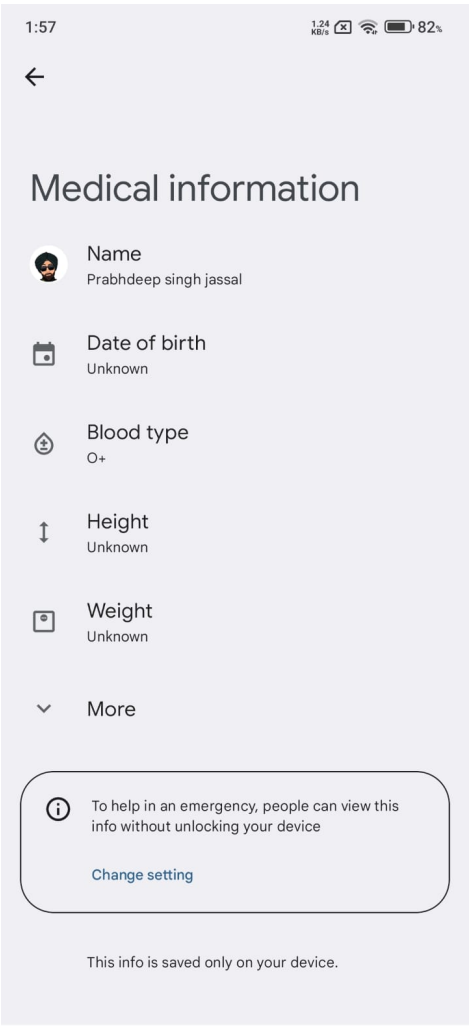

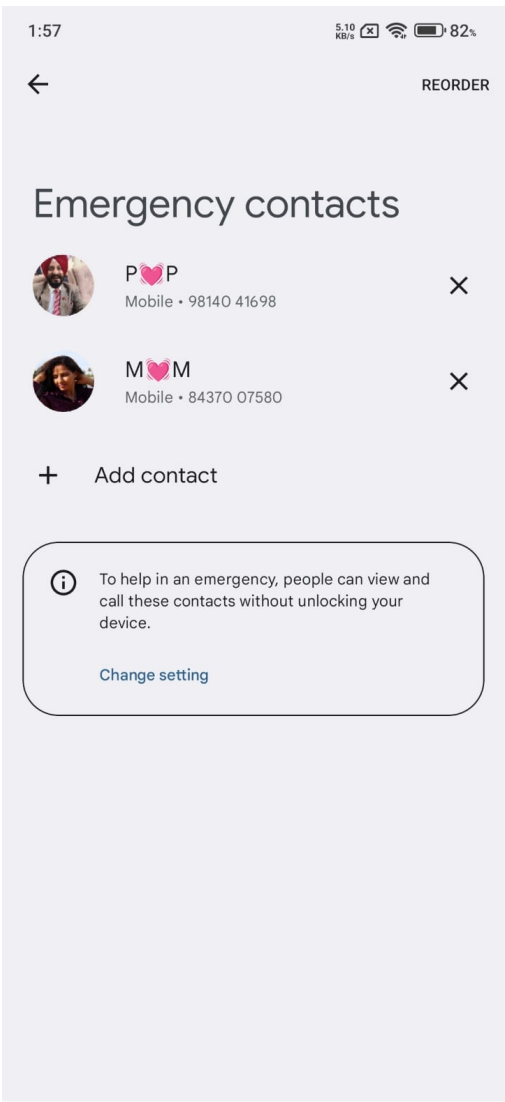

* Redesign profile screen

LIKE THIS

jo jo is profile ch hai oh sara add kro

bs DEMOs , HELP, SEND FEEDBACK , and OPEN SOURCE….. eh na include kro

MEDICAL INFORMATION de vich

EMERGENCY CONTACTS

1:57

Emergency info access

Show when locked

Emergency info and contacts will be visible without unlocking your device

ⓘ First responders and people with access to your device can also dial your emergency contacts without unlocking your device

Share during emergency call

Your emergency info is shared with first responders when you make an emergency call

ⓘ If Emergency Location Service is supported in your region, when you call or text an emergency number, your device can automatically send your emergency information to emergency response partners.

Emergency Location Service

* ALSO MAKE THE NEW SCREEN WHERE WHEN USER navigates the map shows the route

* NAVIGATE THE FEEDBACK FORM (AUDIT VALA) from the route completion
